## PERSONAL PROJECTS

### Medicine Company Project (08/2023 - 01/2024)

- This project worked with Flutter and connected with Laravel Backend using Rest API and Http protocol. The main idea of the project is to allow pharmacies to retrieve drugs from certain medical companies.

### Tourism System Project (04/2024 - 08/2024)

- Flutter & Laravel Mobile app for exploring and booking hotels, flights, and travel packages. Includes advanced reservation management with status tracking, detailed booking info, ratings/reviews, galleries, and email verification for critical operation.

### Reserving Stadiums App - Sportify (04/2025 - 09/2025)

- Flutter & Laravel mobile app for reserving sports stadiums across different sports, organizing leagues, managing matches, supporting teams with invitations, email verification, and secure payments via Stripe.
