SHARBEL ALMOHANA

Software Engineer | Flutter Developer | Mobile Application Development

sharbelmh.10@gmail.com | +963 994 555 902 | Damascus, Syria | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software Engineer and Flutter Developer with hands-on experience building and maintaining enterprise and consumer mobile applications for Android and iOS. Skilled in scalable Flutter architecture, state management, REST API integration, and third-party services, with a strong focus on code quality, performance optimization, and end-to-end feature delivery. Experienced in collaborating with cross-functional teams to develop reliable, maintainable mobile solutions.

TECHNICAL SKILLS

- **Mobile Development:** Flutter, Dart, Android/iOS, responsive UI, deep linking, localization/RTL
- **Architecture & State Management:** BLoC, Cubit, GetX, layered architecture, repository pattern, SOLID, OOP, GetIt
- **APIs & Integrations:** REST APIs, Dio, JSON, JWT, Firebase/FCM, Stripe, geolocation, multipart uploads
- **Storage & Security:** Hive, SharedPreferences, encrypted storage, secure key management, biometric authentication
- **Debugging & Testing:** Flutter DevTools, performance profiling, Firebase Crashlytics, unit testing, widget testing
- **Tools & AI-Assisted Development:** Git, GitHub, Android Studio, VS Code, Cursor, OpenAI Codex

PROFESSIONAL EXPERIENCE

Flutter Developer - NTG (National Technology Group) **Nov 2025 - Present**

Damascus, Syria | On-site

- Developed and maintained two privately delivered enterprise Flutter apps for HR self-service and recruitment, including approvals, timesheets, employee exams, applicant onboarding, and vacancy tracking.
- Implemented feature-based layered architecture with BLoC/Cubit, domain use cases, repository patterns, and GetIt dependency injection.
- Integrated REST APIs using Dio, JWT authentication, centralized error handling, multipart uploads, and session-aware deep linking.
- Implemented encrypted Hive persistence, biometric-assisted login, local caching, and Arabic/English localization.
- Integrated Firebase Crashlytics for crash diagnostics and used Flutter DevTools for rendering, memory, and performance profiling.
- Collaborated with backend developers on API contracts, feature delivery, and issue resolution in an iterative team workflow.

Flutter Developer Trainee (Remote) - NTG **Jul 2025 - Oct 2025**

- Completed four months of remote, task-based training through NTG's internal system before joining the on-site team.

PERSONAL PROJECTS

Lumina - Beauty & Wellness Booking App **Mar 2026 - Aug 2026**

github.com/sharbel10/beauty-center-app

- Developed a bilingual Flutter app for beauty center discovery and booking, with advanced search/filtering, specialist selection, rescheduling, favorites, and reviews.
- Implemented AI recommendations from text/images, Stripe deposits, Firebase notifications, geolocation, and BLoC/Cubit, Dio, Repository Pattern, GetIt, GoRouter, and unit/widget tests.

Sportify - Stadium Booking App **Apr 2025 - Sep 2025**

github.com/sharbel10/Reserving_Stadiums_App

- Developed a multi-role Flutter app for players and stadium owners covering discovery, booking, leagues, and teams.
- Implemented BLoC, Clean Architecture, Dio, Freezed, dependency injection, email verification, Stripe payments, maps, and deep linking.

Government Complaints App **Oct 2025 - Dec 2025**

github.com/sharbel10/goverment_complaint

- Built a Flutter app for submitting and tracking citizen complaints with real-time status updates, push notifications, and GetX (MVC).

Banking System - Design Patterns Showcase **Dec 2025 - Jan 2026**

github.com/sharbel10/banking_system

- Built a Flutter banking simulation using State, Decorator, Composite, Observer, Facade, and Chain of Responsibility patterns, with BLoC and dependency injection; uses local/mock data.

Tourism Booking System **Apr 2024 - Aug 2024**

github.com/sharbel10/Tourism_project

- Built hotel, flight, and travel-package booking flows with advanced search, filtering, reservation management, reviews, and image galleries.

EDUCATION

Bachelor's Degree in Software Engineering - Damascus University **2026**

Faculty of Information Technology

ADDITIONAL INFORMATION

- **Languages:** Arabic (Native), English (Professional working proficiency)
- **Volunteer Leadership:** Team leader and activity coordinator, Don Bosco Church
